SOURCE

1. Subsource states that sixty percent of the paper factories in the Russian Zone of Germany have been dismantled, and current output is about thirty percent of the peace-time level. There is sufficient timber available to maintain normal production, but chemicals and coal are short. Subsource stated that during November about 400 tons of wood pulp were delivered to the British Zone in exchange for coal and chemicals.
2. All factories are nationalized and operated under trustees of the local German government ("Landeseigene Betriebe").
3. The following plants are in operation in the State of Saxony:
 - a. Wiede's Papierfabrik Rosenthal G.m.b.H., Blankenstein (K98)
Monthly production of 500 tons of wood pulp.
 - b. Freiburger Papierfabrik, Weissenborn;
Monthly production is 500 tons of wood pulp.
 - c. Kübler & Niethammer, Kriebstein, near Waldheim;
Monthly production is 800 tons of wood pulp.
 - d. Leonhardt Söhne, Grossen;
Monthly production is 800 tons of wood pulp.
